

Module 2 Worksheet Reviewing My Assessments

| | Phonemic Awareness | Phonics | Fluency | Vocabulary | Comprehension |
|---|--------------------|---------|---------|------------|---------------|
| Standardized Evidence at my grade level | | | | | |
| Classroom Evidence | | | | | |

Standardized Evidence is administered, scored, and interpreted the same way for everyone. Most large-scale assessments are standardized (e.g., CSAP, DIBELS, BEAR, MAPS, ITBS)

Classroom Evidence is administered, scored, and/or interpreted more flexibly by the teacher. Some examples include notes from oral reading, running records, weekly quizzes, and end of unit tests.
